Sector Densely Wooded. offensive forms a counterable bulle-in the British line. The southern and rests on the Southe. It is a broad rolling country over which the littlish are pushing, altogether dif-

lightish are pushing, alterather different from the furt marshy and bleak aspect of Flanders. Its rounded can be for the day has gone well for the Germans made on including read on lights trenches to the west-the british front it is possible to see the trunches of the Germans, windless the trunches of the Germans, windless the trunches of the Germans, windless the unbrakes rour of artiflers, the british front it is possible to see the language time of any offensive yet undertaken on the west-made three raids in the neighborhood of Messibes and accounted for a number of the language. The language filtrop-

er expected a great attach in this time country. We hope therefore, for a Proceduction of the German salient there corre and the securing of botter strategic of the battle, this, it is certain this attack will be very destructive to the merale of the German troops.

The tremendous offensive which iver which apparently are names-has been in unched by the Dritish arms early in working out the present plans, on the German front is the culmina. With deliberate and methodical pretion of a five-day bombardment which, in the amount of ammunition expended and in the territory involved exceeds anything of the hind that has been previously known in the world

For some weeks reports have been current in England and France that the "big push" of the British was about to commence. It was stated that England had 2,000,000 men fully equipped and trained, in prepara-tion for the suprema effort to break the German lines. More than 1,000. the shells are declared to have here ardment which extended over a front ad scheme of attack, butty miles in length,

in practically every field of the war. The British assembly comes on the heris of the greatest accommon war by the Rhasians in Galleta, and that a wins, which have resulted in com-pletely driving the Austrians from Bukowina and are still continuous. On the Italian front the central paw-ers also have met with severa re-verses and for several days the Itallans have been steadily driving the Austrians from position after position in the Trentino. The defermation of Austriana from p. The deferme also or in the Trentino. The deferme also or Verdun by the Prench appears to have eitfrened and the belance of battle in that hitterly contrated sector appears recently to have awayed the defenders.
